Requirements for using Delhi Election Application

You must have

- an android mobile device.
- Google map, installed in your device.
- internet connection in your device.
- location/ GPS turned on, in your device settings (to use 'Navigate to your polling station' feature).

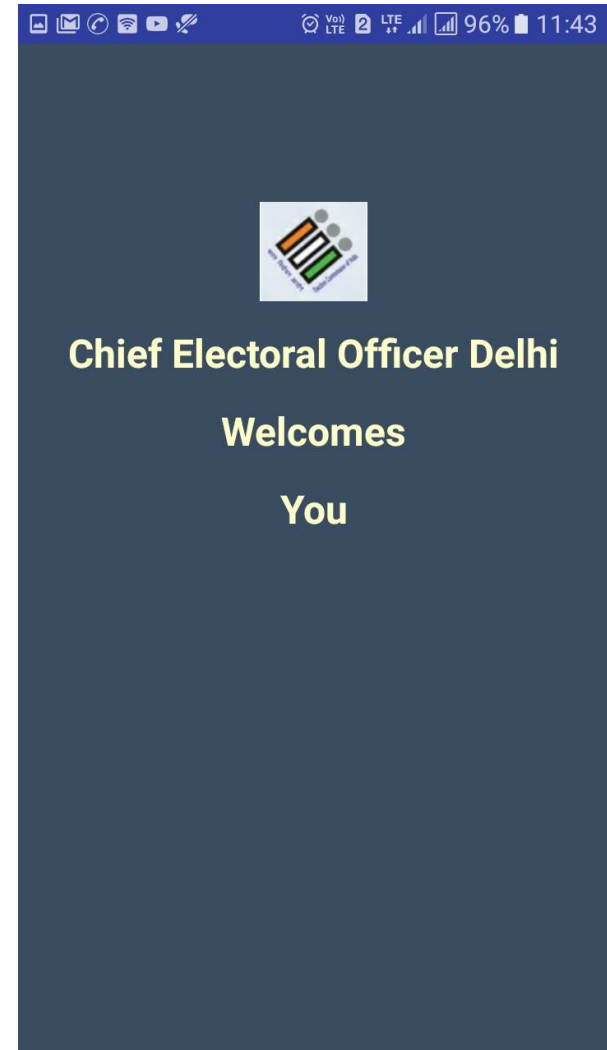

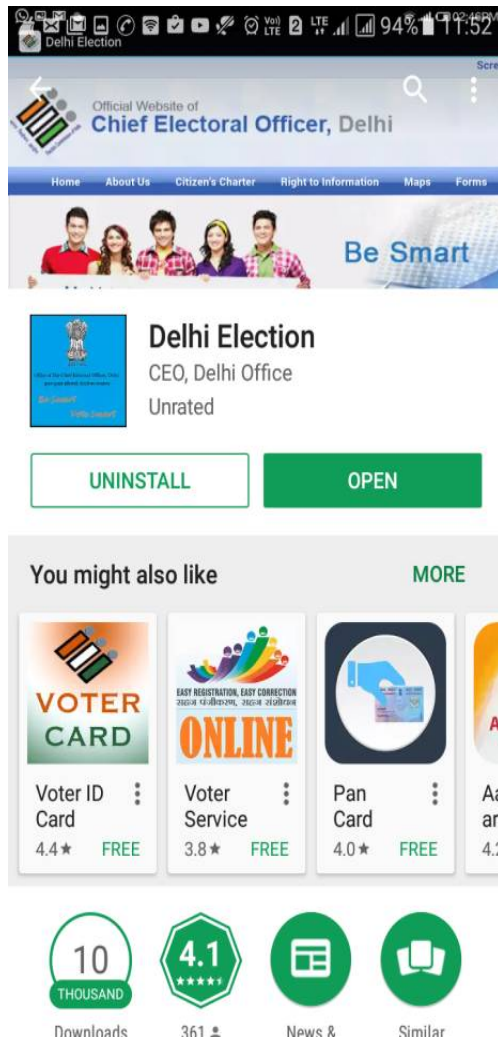

How to download/install Delhi Election application

- Open Google playstore on your mobile device
- Search for 'Delhi Election' application in search box
- Click 'Install' button to download & install application.

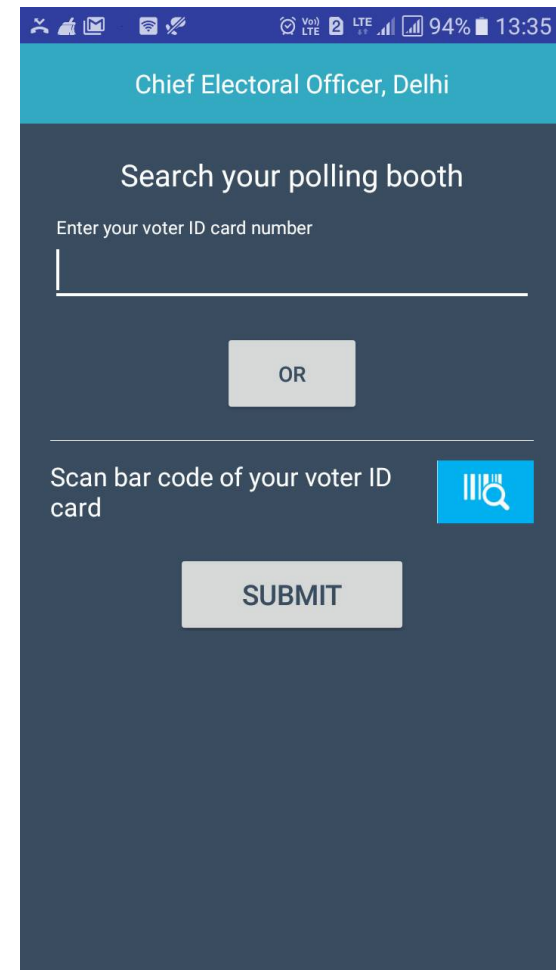

Open the Application

How to navigate your polling station to caste your vote

- **Click on 'Navigate to your polling station'**
- **Fill in your Voter ID card no. OR**
- **Scan bar code printed on your voter id card**
- **Click 'submit'**

The screenshot shows a mobile application interface for navigating to a polling station. At the top, the status bar displays various icons and the time 13:35. Below the status bar, the text "Chief Electoral Officer, Delhi" is displayed. The main heading is "Search your polling booth". Below this, there is a text input field with the placeholder text "Enter your voter ID card number". A grey button labeled "OR" is positioned below the input field. Below the "OR" button, there is a section for scanning a bar code, with the text "Scan bar code of your voter ID card" and a blue icon representing a scanner. A large grey button labeled "SUBMIT" is located at the bottom of the form.

Thanks!
